Plan

Select All

- All birth control options discussed including OCPs, patch, ring, Depo, Nexplanon and IUD. Risks, benefits and side effects discussed. Patient would like to try:
OCPs/patch/ring/Depo/Nexplanon

- Patient given 2 months of medication to allow time to schedule annual physical. Will provide one year of Rx after physical.

- STI risks discussed. Encouraged abstinence, limiting number of sexual partners and consistent condom use.

notes

- Patient understands cannot completely rule out pregnancy today since not during regular menses although pregnancy test is negative in office. Pt would still like to start Depo and understands small risk to possible fetus. Pt asked to repeat pregnancy test either in office or at home in 2-3 weeks.
