**Patient Instructions - Sick**

- 
- Asthma - Follow your asthma action plan. Continue all daily maintenance medications. Use quick reliever as needed per asthma action plan. Call office if need for quick reliever more than two times per week, persistent cough at night or with exercise, following asthma action plan and cough not improving, or other concern. Follow up per your provider's instructions. Make sure your child receives their annual flu vaccination.  
 ▼
- Allergic rhinitis - Use all daily medications regularly. Frequent saline rinses of your child's nose can help decrease allergy symptoms. If your child has been tested for allergies, minimize their exposures to known allergens. Call the office if your child's symptoms are not controlled on their current medications.
