### D2C Plan Anemia

**Select All**

Reviewed hemoglobin result today

notes

Discussed various causes of anemia and their significance

notes

Discussed dietary sources of iron and vitamin B12 in detail and gave printed resources

notes

Stressed the importance of nutrition with increased iron sources and vitamin C sources to assist with the absorption of iron

notes

Discussed starting ferrous sulfate treatment for iron deficiency anemia and then recheck hemoglobin in 2 months

notes

Discussed how excess calcium can bind iron and cause iron deficiency and reviewed appropriate amounts of calcium sources based on age

notes

If hemoglobin decreased level persists despite iron treatment will consider CBC with diff, ferritin, TIBC, Iron and Retic count

notes

- Reviewed family history and discussed risk factors for hereditary causes of anemia  
notes
- Discussed need for further evaluation for hereditary anemias and consideration to obtain hemoglobin electrophoresis  
notes
- Gave lab order form for venous blood draw: CBC with diff, ferritin, TIBC, Iron and Retic count as well as B12 and folate and will follow up the results  
notes
- Referral to hematologist for further evaluation  
notes
- Care plan discussed and printed visit summary and care plan provided at today's visit  
notes
- Follow up in 1-2 months  
notes
- add item
