▼

D2C Plan Injury

- Discussed safety and injury prevention in detail
 ▼
- Discussed treatment plan for extremity injuries and use of ACE compression bandages
 ▼
- Discussed sports injury prevention in detail
 ▼
- Discussed water and pool safety
 ▼
- Discussed car safety and appropriate use of seatbelts based on weight and age

notes

- Discussed prevention of burns and abrasions

notes

- Discussed head injury prevention and use of helmets with cycling, skating and skateboarding

notes

- Discussed motor vehicle safety and precautions

notes

- Discussed RICE: Rest, Ice, Compression, Elevation

notes

- Ice and slow gradual stretching will help the pain and inflammation to improve

notes

- May use NSAIDS (ibuprofen, naproxen) to help with inflammation and pain as directed by doctor and with food

notes

- Discussed management of skin care to help with healing of minor abrasions and burns

notes

- Discussed treatment plan for burn care in detail including use of silvadene and sterile gauze dressings

notes

- Discussed differences between soft tissue and bony injuries

notes

- Discussed need for Xray to better visualize the bones involved in the injury

notes

- Radiology order form and instructions given

notes

- Consider orthopedics referral for further evaluation

notes

- Discussed benefits of physical therapy in injury prevention

notes

- Discussed benefits of the sports medicine program in injury prevention

notes

- Gave TIPP sheets for age appropriate safety tips

notes

Follow up in 1-2 weeks for re-examination

notes

Follow up for any lack of improvement or worsening symptoms
